How can we use WIDA MODEL to learn more about our students' academic English language proficiency?

I just moved here and I've never taken WIDA ACCESS before. My teacher needs to know whether I should be in a beginning or intermediate ELL class.

My support team is meeting soon and they need more information about my English language development progress.

I'm a new student at my school and my WIDA ACCESS scores aren't available yet. High school registration is here and my counselor is working with me to figure out the right classes.

I'm learning so much English that my teacher wants to see if I'm ready for the next challenge!
